

WE THINK THE WORLD OF PLASTICS

PROFILES AND GASKETS FOR
AIRCON AND
REFRIGERATION
PRODUCTS

MORE THAN 20 DIFFERENT TYPES OF THERMOPLASTICS IN USE

48 HOURS : OUR FASTEST PROTOTYPE YET!

IF YOU CAN THINK IT, WE CAN MAKE IT

Primo is a trusted supplier of extruded plastic profiles for refrigerators, washers, dryers and air conditioning/ventilation systems.

We develop and deliver the solution that is exactly right in terms of quality, logistics and price, all based on decades of experience working with major suppliers of white goods and ventilation across the globe.

We know what you are looking for: Fast and secure prototyping, dedicated development partnerships, and products that deliver efficient insulation, energy savings, weight reduction and ease of installation and service.

AIR-CONDITIONING AND VENTILATION

- Drop separators made from weather-resistant polymers
- Protective water-resistant profiles
- Filter frames, pipes and structural profiles

HIGH-VOLUME PRODUCTION AND SUPERFAST PROTOTYPING

Remember how prototyping used to take weeks, even months? Not anymore.

We have our own tooling department and a dedicated R&D staff ready to move quickly – and this means we can deliver 3D-printed prototypes of profiles and strips in a matter of days. In fact, our current record is 48 hours from idea to printed prototype.

With an international production network in place, we offer flexibility and fast high-volume production with a logistics setup to match.

THERMAL BREAKS

- For applications such as refrigerators and cold rooms
- Improved energy efficiency of the end product
- A complete solution including product development of customised solutions
- Advanced production technology and extrusion expertise

DECORATIVE PROFILES

- Decoration and protection for shelves and other exposed parts
- Wide variety of shapes, sizes and colours
- Easy to clean and resistant to scratches
- Foil coating as an option
- High-end product through advanced production technology

FINISHING PROFILES

- Bumpers for checkouts and refrigerated counters, e.g. digital price display labels and price holders
- Many colours and plastic types (soft or rigid) available
- Customised solutions
- Easy to clean and highly durable

MAGNETIC GASKETS

- For all kinds of refrigerators and freezers for commercial and domestic use
- Tight, reliable seal even under heavy, repeated use
- High standards of insulation, density and durability
- Outstanding options in delivery and high-volume production

MATERIAL EXPERTS

Primo offers profiles, strips and gaskets produced from a wide variety of plastic types such as PVC, TPE, ABS, ASA, PA and PUR, just to name a few. Our in-house compounding facility and our experienced plastics engineers will work closely with your own staff to find the optimum solution, regardless of your requirements for durability, insulation properties, colour/UV stability or other product properties.

A STRONG EUROPEAN PRESENCE

Primo has a total of 12 different production facilities in several European countries – all subject to frequent audits and customer inspections. We offer unparalleled levels of quality and documentation, and our customers rely on us to be their resource centre and strategic partner in integrated plastics solutions. We supply a wide range of industries with customised extruded profiles and have been doing so for more than 50 years.

PRIMO – WE THINK THE WORLD OF PLASTICS

Primo is an international group of companies with one thing in common: A passion for plastics extrusion.

From our beginnings in Denmark, producing profiles for windows and doors and for building and decoration purposes, our knowledge of plastics and extrusion has led us to diversify into a number of exciting businesses

such as construction, medical equipment, transportation, energy, power & lighting, white goods and offshore. In all our business areas we supply many different industries with multiple extrusion for a multitude of applications.

We believe strongly in working with our customers to develop the right profile solution, whatever the application and type of plastic involved.

Today, the Primo Group consists of companies throughout Europe and in China.
