

A LEADING SUPPLIER FOR THE MEDICAL INDUSTRY

Primo Medico participates in your product development from start to finish, offering fast and flexible prototyping and on-time delivery.

PRIMO  **Medico**

YOUR DEDICATED PARTNER AND SUPPLIER OF MEDICAL TUBING

PRIMO – WE THINK THE WORLD OF PLASTICS

Primo is an international group of companies with one thing in common: A passion for plastics extrusion.

From our beginnings in Denmark, producing profiles for windows and doors and for building and decoration purposes, our knowledge of plastics and extrusion has led us to diversify into a number of exciting

businesses: Construction, medical equipment, transportation, energy, power and lighting, white goods, and offshore. In all our business areas we supply many different industries with extruded, co-extruded and triple-extrusion plastics for a multitude of applications.

We believe strongly in working with our customers to develop the right profile solution, whatever the application and type of plastic involved.

Today, the Primo Group consists of companies throughout Europe and in China.

PRIMO 

DEVELOPMENT AND EXTRUSION OF HIGH QUALITY MEDICAL TUBING

Primo's Medico resource centre specializes in clean room production and handling of products such as:

- Corrugated tubes
- X-ray tubes
- Single and multi-lumen tubes
- Multilayer tubes
- Tubing and reinforcements for dental use (needles, saliva ejectors etc.)
- Various profiles for different medical equipment

We have many years of know-how in creating tailored solutions to suit your ideas and your requirements.

Primo Medico often participates in the product development from start to finish, offering fast and flexible prototyping and on-time delivery. Our capacity for fast, top-quality prototyping will aid you in getting your products to market as quickly as possible.

Matching the legal demands of the industry

The medical industry is subject to high legal requirements. We are familiar with all these requirements, and we offer first-class clean room facilities and a highly trained specialist staff that will deliver superior quality every time. Our exacting standards of precision and extremely low error tolerance match the high demands for quality in the medical industry.

Full documentation and traceability

In all production phases, we employ the Oracle ERP system. This extension of computer control and monitoring ensures that all information is updated during production. Constant monitoring makes it possible to identify all raw material batches - always. From start to finish, all relevant parameters are recorded and control measurements are made.

All Primo products are fully documented and data sheets can be delivered by request.

QUALITY ASSURANCE

Primo has a certified quality assurance system which complies with all relevant regulations, including:

- ISO 13485 Certification
- ISO 14644 Class 8 Cleanrooms
- REACH Compliance
- Lot Release Inspection
- Regulatory Compliance
- Fully Validated Manufacturing Processes

PRIMO Medico

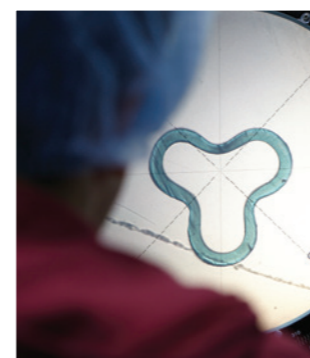

Your development partner

The earlier you involve Primo in your development process, the better the chances that we can help you find solutions that are "designed for manufacturing".

We place our most competent experts at your disposal and guarantee full confidentiality as a matter of course.

Primo's long-standing expertise in a wide and diverse range of business areas, from medical tubing to door gaskets, from mud flaps for trailers to offshore cabling, makes us geared for key account management and close, long-lasting relationships with our customers.

And, of course, we base all collaboration with our customers on uncompromising confidentiality and reliability.

Urine bags from Coloplast are fitted with medical tubing produced by Primo Medico.
