Material: TPE

PRIMO

– WE THINK THE WORLD
OF PLASTICS

Primo is an international group of companies with one thing in common: A passion for plastics extrusion.

From our beginnings in 1959 in Denmark, producing profiles for windows and doors and for building and decoration purposes, our knowledge of plastics and extrusion has led us to diversify into a number of exciting businesses: Construction, medical equipment, transportation, energy, power and lighting, white goods, and offshore. In all our business areas we supply many different industries with extruded, co-extruded and triple-extrusion plastics for a multitude of applications.

We believe strongly in working with our customers to develop the right profile solution, whatever the application and type of plastic involved.

Today, the Primo Group consists of companies throughout Europe and in China.
